Dear Educator,

Words matter. They express our emotions, convey our ideas, articulate our opinions, and reveal our thoughts.

Students who lack a strong vocabulary struggle to complete these tasks. Furthermore, weak vocabularies limit students’ understanding of what they read and the clarity of what they write.

Our Vocabulary Series and our digital word-building program, Vocabulary Plus, can help. Spanning reading levels 5–13 and suited to a variety of instructional approaches, they teach the words needed for success—in the classroom and beyond. Here’s how:

- An intensive words-in-context approach
- Abundant practice
- Lively, appealing content
- Relevant, essential words
- Instructive feedback
- Independent/differentiated options
- Digital or print formats
- Affordable pricing

Check out the pages that follow OR contact us for a sample copy or free trial of our digital material. Please ask about available site licenses or bulk discounts to save on your purchase.

We look forward to hearing from you!

Why TP’s Vocabulary Series Is So Effective

The Words-in-Context Approach. Students learn new words by encountering them in meaningful contexts—not through rote memorization. Our books provide at least six different contexts for each vocabulary word!

Abundant Practice. Each book is packed with activities, exercises, unit reviews, and tests that prompt students to interact closely with each new vocabulary word. The result: students’ word banks grow.

Appealing Content. Dull materials discourage learning. Our books avoid that. Each features high-interest passages students will want to read.

Relevant Words. Words in the series were drawn from word frequency lists with alignment to state standards and high-stakes tests. The aim: to equip students with the words they need to know.

Affordability. Full version vocabulary books teach 300 key words/word parts and are priced at $11.90 each. Short Versions teach 200 words and cost $9.90 each.
